

Certificate of Conformity

NO.: EDG2406270119C00401C

The following products have been tested by us with the listed standards and found in conformity with the Directive 2011/65/EU and its amendment directive (EU) 2015/863 of the European Parliament and of the Council with regard to the restriction of the use of certain hazardous substances in electrical and electronic equipment. It is possible to use CE marking to demonstrate the conformity with this Directive.

Applicant : SolaX Power Network Technology (Zhejiang) Co., Ltd.

Address : No.278, Shizhu Road, Chengnan Sub-district, Tonglu County, Hangzhou, Zhejiang, China

Manufacturer : SolaX Power Network Technology (Zhejiang) Co., Ltd.

Address : No.278, Shizhu Road, Chengnan Sub-district, Tonglu County, Hangzhou, Zhejiang, China

Sample Name : Adapter Box G3

Style/Item No. : Adapter Box G3,DCT30W120200ZZ-A0, 94001-00052-EU

Test Standards : IEC 62321-3-1:2013
IEC 62321-4:2013+A1:2017
IEC 62321-5: 2013
IEC 62321-7-1:2015
IEC 62321-7-2:2017
IEC 62321-6:2015
IEC 62321-8:2017

Authorized signatory
Feb. 11, 2025

This certification is part of the full test report(s) and should be read in conjunction with it. The certificate is a single data of the test report(s) and the products do not have to be submitted to the whole production and does not permit the use of the test lab logo.

EMTEK (Dongguan) Co., Ltd.

Add: Room 111&112, Building 8, -1&2/F., Office Building 2, Zone A, Zhongda Marine Biotechnology Research and Development Base, No.9, Xincheng Avenue, Songshan Lake High-Tech Industrial Development Zone, Dongguan, Guangdong, China [Http://www.emtek.com.cn](http://www.emtek.com.cn) E-mail: project@emtek.com.cn

Certificate of Conformity

NO.: ENB2406270119S00301C

The following product has been tested by us with the listed standards and found in conformity with the council LVD directive 2014/35/EU. It is possible to use CE marking to demonstrate the conformity with this LVD Directive.

Applicant : SOLAX POWER NETWORK TECHNOLOGY
(ZHEJIANG) CO., LTD.

Address : No.278, Shizhu Road, Chengnan Sub-district, Tonglu
County, Hangzhou, Zhejiang, China.

Manufacturer : SOLAX POWER NETWORK TECHNOLOGY
(ZHEJIANG) CO., LTD.

Address : No.278, Shizhu Road, Chengnan Sub-district, Tonglu
County, Hangzhou, Zhejiang, China.

Trade Mark : SolaX Power

EUT : Adapter Box G3

M/N : Adapter Box G3

Technical Data : Input: 12.0V $\overline{=}$, 0.25A, 3.0W, powered by approved
adapter: 100-240V \sim , 50/60Hz, 0.8A, Class II

Test Standards : EN 62368-1:2014+A11:2017

Mike Wang
.....
(Manager)
February 20, 2025

The certificate is based on a single evaluation of one sample of above-mentioned products, It does not imply an assessment of the whole production and does not permit the use of the test lab logo.

EMTEK (Ningbo) Co., Ltd.

Add: No. 8, Building 8, Lane 216, Qingyi Road, High-tech Zone, Ningbo, Zhejiang, China [Http://www.emtek.com.cn](http://www.emtek.com.cn) E-mail: nb@emtek.com.cn

Certificate of Conformity

NO.: ENB2406270119E00201C

The following product has been tested by us with the listed standards and found in conformity with the council EMC directive 2014/30/EU. This is to certify that the specimen is in conformity with the assessment requirement mentioned follow. This certificate does not imply assessment to the production of the product.

EU – TYPE EXAMINATION CERTIFICATE
RADIO EQUIPMENT DIRECTIVE 2014/53/EU
Annex III Module B

MANUFACTURER

Name	:	SolaX Power Network Technology (Zhejiang) Co., Ltd.
Address	:	No.278, Shizhu Road, Chengnan Sub-district, Tonglu County, Hangzhou, Zhejiang, China
Contact Name & Title	:	Dorothy Fan / Certification Engineer
Email	:	dorothy@solaxpower.com
Phone number	:	(+086)0571-56260008

PRODUCT DESCRIPTION

Trademark/Trade Name	:	SolaX Power
Model Number	:	Adapter Box G3
Product Description	:	Adapter Box G3

NOTIFIED BODY

Certificate issued by	:	Notified Body 1177, TIMCO Engineering, Inc.	
Certificate number	:	E1177-255288	
Name and Signature	:	Bruno Clavier 	Date: April 15, 2025

The device shall be marked as follows: 

Based on the evidence presented in the Technical Documentation, TIMCO Engineering, Inc., as appointed Notified Body, has issued this EU-Type Examination Certificate in accordance with Annex III Module B. The product described appears to be in conformity with the essential requirements Article 3.1(a), 3.1(b), and 3.2 of RED 2014/53/EU. This certificate relates only to the documents as provided to Timco Engineering, Inc. and is valid up to (1) the date of cessation of presumption of conformity of any of the superseded standards which were used for testing this product and assessed by Notified Body or (2) the date of modifications to the approved type that may affect the conformity of the apparatus with the essential requirements of this Directive or the conditions for validity of that certificate, whichever comes first.

TIMCO Engineering, Inc. 849 NW State Road 45 Newberry, FL 32669 www.timcoengr.com A2LA Accredited (Certificate No. 0955.02)	This Certificate is issued under the provision that TIMCO Engineering, Inc. nor its subsidiary companies accept any liability concerning the contents of this document other than forced by law. Reproduction of the Certificate (with Annex) in full is allowed. Reproduction of parts of this certificate may only be allowed by written permission of TIMCO Engineering, Inc.

EU – TYPE EXAMINATION CERTIFICATE
E1177-255288

Date: April 15, 2025

PRODUCT SPECIFICATIONS

Intended Use / Category	: 2.4G WIFI
RF output power	: 19.23dBm (EIRP)
Frequency range (MHz)	: 2402~2480MHz
Modulation	: DSSS, OFDM
Antenna type	: PCB Antenna

Intended Use / Category	: BLE
RF output power	: 9.55dBm (EIRP)
Frequency range (MHz)	: 2402~2480MHz
Modulation	: GFSK
Antenna type	: PCB Antenna

According to the Technical Documentation compiled by the Manufacturer, the following standards were used:

ESSENTIAL REQUIREMENTS

Essential Requirement	Standard Number & Version
Radio (Article 3.2)	: ETSI EN 300 328 V2.2.2 (2019-07)
EMC (Article 3.1b)	: ETSI EN 301 489-1 V2.2.3: 2019 ETSI EN 301 489-17 V3.2.4: 2020 EN 55032:2015+A11:2020, EN 55035:2017+A11:2020 EN IEC 61000-3-2:2019+A1:2021, EN 61000-3-3:2013/A2:2021/AC:2022-01
Health (Article 3.1a)	: EN IEC 62311:2020 EN 50665:2017
Safety (Article 3.1a)	: EN 62368-1:2014+A11:2017
Emergency Service (Article 3.3g)	: Assessment not requested/Not applicable to this device
Common Chargers (Article 3.4)	: Assessment not requested/Not applicable to this device

ELEMENTS ASSESSED

#	Description	
1.	A general description of the radio equipment including: (i) Photographs or illustrations showing external features, marking and internal layout; (ii) Versions of software or firmware affecting compliance with essential requirements; (iii) User information and installation instructions;	<input checked="" type="checkbox"/>
2.	Conceptual design and manufacturing drawings and schemes of components, sub-assemblies, circuits and other relevant similar elements	<input checked="" type="checkbox"/>
3.	Descriptions and explanations necessary for the understanding of those drawings and schemes and the operation of the radio equipment	<input checked="" type="checkbox"/>
4.	List of the harmonized standards applied in full or in part, the references of which have been published in the Official Journal of the European Union, and, where those harmonized standards have not been applied, descriptions of the solutions adopted to meet the essential requirements set out in Article 3, including a list of other relevant technical specifications applied. In the event of partly applied harmonized standards, the technical documentation shall specify the parts which have been applied	<input checked="" type="checkbox"/>
5.	Copy of the EU Declaration of Conformity	<input checked="" type="checkbox"/>
6.	An explanation of the compliance with the requirement of RED Article 10(2) and of the inclusion or not of information on the packaging in accordance with RED Article 10(10)	<input checked="" type="checkbox"/>
7.	Risk Assessment. RED Annex III module B - Analysis and assessment of the risk(s)	<input checked="" type="checkbox"/>
8.	If Applicable: Results of design calculations made, examinations carried out, and other relevant similar elements	<input type="checkbox"/>
9.	If Applicable: where the conformity assessment module in Annex III has been applied, copy of the EU-type examination certificate and its annexes as delivered by other notified bodies involved.	<input type="checkbox"/>
10.	If Applicable: Modification/Standard Update/Applicant or Manufacturer cover letter explaining the changes to the existing version of the product along with supporting exhibits.	<input type="checkbox"/>

TEST REPORTS ASSESSED

Radio / EMC / Health / Safety	Test Report Number
EMC	ENB2406270119W00101R
EMC	ENB2406270119E00201R
Radio BT	ENB2406270119W00102R
Radio WIFI	ENB2406270119W00103R
Health	ENB2406270119W00104R
Safety	ENB2406270119S00301R

This certificate is issued under the following additional and non-exhaustive list of provisions of the Radio Equipment Directive (2014/53/EU) of the European Parliament and the Council of the European Union:

1. **Article 10(1):** When placing their radio equipment on the market, manufacturers shall ensure that it has been designed and manufactured in accordance with the essential requirements set out in Article 3.
2. **Article 10(2):** Manufacturers shall ensure that radio equipment shall be so constructed that it can be operated in at least one Member State without infringing applicable requirements on the use of radio spectrum.
3. **Article 10(4):** Manufacturers shall keep a copy of the EU-type examination certificate, its annexes and additions together with the technical documentation at the disposal of the national authorities for 10 years after the apparatus has been placed on the market.
4. **Article 10(5):** Manufacturers shall ensure that procedures are in place for series production to remain in conformity with this Directive. Changes in radio equipment design or characteristics and changes in the harmonised standards or in other technical specifications by reference to which conformity of radio equipment is declared shall be adequately taken into account.

When deemed appropriate with regard to the risks presented by radio equipment, manufacturers shall, to protect the health and safety of end-users, carry out sample testing of radio equipment made available on the market, investigate, and, if necessary, keep a register of complaints, of non-conforming radio equipment and radio equipment recalls, and shall keep distributors informed of any such monitoring.

5. **Article 10(6):** Manufacturers shall ensure that radio equipment which they have placed on the market bears a type, batch or serial number or other element allowing its identification, or, where the size or nature of the radio equipment does not allow it, that the required information is provided on the packaging, or in a document accompanying the radio equipment.
6. **Article 10(7):** Manufacturers shall indicate on the radio equipment their name, registered trade name or registered trade mark and the postal address at which they can be contacted or, where the size or nature of radio equipment does not allow it, on its packaging, or in a document accompanying the radio equipment. The address shall indicate a single point at which the manufacturer can be contacted. The contact details shall be in a language easily understood by end-users and market surveillance authorities.

Excerpts from Blue Guide:

- If the manufacturer (declaring himself as a manufacturer by putting his name and address on the product) is **outside the EU** and the products are placed on the Union market by an importer, the product will bear two addresses: the one of the manufacturer and the one of the importer. Indicate the following three elements: his (1) name, (2) registered trade name or registered trade mark and (3) a single contact postal address at which they can be contacted on the product or when not possible because of the size or physical characteristics of the products, on its packaging and/or on the accompanying documentation. The single contact point may not necessarily be located in the Member State where the product is made available on the market. (Notes: However, if the importer acts as the manufacturer's Authorised Representative, then only the importer's address is required on the product.)
- If the original manufacturer is **outside the EU** and the importer places the product on the market under his own name or trademark or modifies the product already placed on the market (in such a way that compliance with the applicable requirements may be affected), the importer is considered the manufacturer. The only address that in this case will figure on the product (or packaging or accompanying document) is the address of the importer who is considered as the manufacturer.
- If the manufacturer is **within the EU**, the product will bear only one (manufacturer's) address as there is no importer involved.
- If the manufacturer is **within the EU** (a company located in the EU declaring itself to be a manufacturer by putting its name and address on the product) although the products are manufactured outside the EU, that company is considered to be the manufacturer who places the product on the Union market, even if actual importation is done by another company. In this case there is no importer in the meaning of the importer's definition and it is sufficient to put only the manufacturer's address.

7. **Article 10(8):** Manufacturers shall ensure that the radio equipment is accompanied by instructions and safety information in a language which can be easily understood by consumers and other end-users, as determined by the Member State concerned. Instructions shall include the information required to use radio equipment in accordance with its intended use. Such information shall include, where applicable, a description of accessories and components, including software, which allow the radio equipment to operate as intended. Such instructions and safety information, as well as any labelling, shall be clear, understandable and intelligible.

The following information shall also be included in the case of radio equipment intentionally emitting radio waves:

(a) frequency band(s) in which the radio equipment operates;

(b) maximum radio-frequency power transmitted in the frequency band(s) in which the radio equipment operates.

8. **Article 10(9):** Manufacturers shall ensure that each item of radio equipment is accompanied by a copy of the EU declaration of conformity or by a simplified EU declaration of conformity. Where a simplified EU declaration of conformity is provided, it shall contain the exact internet address where the full text of the EU declaration of conformity can be obtained. The simplified EU declaration of conformity is to be placed in the user's manual:

Hereby, [Name of manufacturer] declares that the radio equipment type [designation of type of radio equipment] is in compliance with Directive 2014/53/EU.

The full text of the EU declaration of conformity is available at the following internet address:xxxx

9. **Article 10(10):** In cases of restrictions on putting into service or of requirements for authorisation of use, information available on the packaging shall allow the identification of the Member States or the geographical area within a Member State where restrictions on putting into service or requirements for authorisation of use exist. Such information shall be completed in the instructions accompanying the radio equipment. The Commission may adopt implementing acts specifying how to present that information. Those implementing acts shall be adopted in accordance with the advisory procedure referred to in Article 45(2).
10. **Article 10(11):** Manufacturers who consider or have reason to believe that radio equipment which they have placed on the market is not in conformity with this Directive shall immediately take the corrective measures necessary to bring that radio equipment into conformity, to withdraw it or recall it, if appropriate. Furthermore, where the radio equipment presents a risk, manufacturers shall immediately inform the competent national authorities of the Member States in which they made the radio equipment available on the market to that effect, giving details, in particular, of the non-compliance, of any corrective measures taken and of the results thereof.
11. **Article 10(12):** Manufacturers shall, further to a reasoned request from a competent national authority, provide it with all the information and documentation in paper or electronic form necessary to demonstrate the conformity of the radio equipment with this Directive, in a language which can be easily understood by that authority. They shall cooperate with that authority, at its request, on any action taken to eliminate the risks posed by radio equipment which they have placed on the market.
12. **Article 19(2):** On account of the nature of radio equipment, the height of the CE marking affixed to radio equipment may be lower than 5 mm, provided that it remains visible and legible.
13. **Article 20(1):** The CE marking shall be affixed visibly, legibly and indelibly to the radio equipment or to its data plate, unless that is not possible or not warranted on account of the nature of radio equipment. The CE marking shall also be affixed visibly and legibly to the packaging.
14. **Annex III Module B, Point 7, Declaration of Conformity:** The manufacturer shall inform the notified body that holds the technical documentation relating to the EU-type examination certificate of all modifications to the approved type that may affect the conformity of the radio equipment with the essential requirements of this Directive or the conditions for validity of that certificate. Such modifications shall require additional approval in the form of an addition to the original EU-type examination certificate.
15. **Annex VI Declaration of Conformity, Point 8:** Where applicable, description of accessories and components, including software, which allow the radio equipment to operate as intended and covered by the EU declaration of conformity
16. **Product Specifications:** The antenna gain and any other data is provided by the applicants.
